## Winter Weather Signs.

Thus early all signs in the upper part of the State point to open winter, says the Louisville Post. The husks on the corn are thinner than usual, and this is taken as a sure indication of warm weather until late in the winter. Birds that go south with the first approach of winter have begun repairing their nests built this spring, showing they will stay in this region until late in the fall. The fur of the chipmunk and squirrel, which is heavy just previous to a hard winter, is found to be thin. Many farmers place great reliance upon these signs, which have been handed down from father to son. They will not harvest their corn until later than usual this year.

YESTERDAY was the tenth day of the month, Tishri, in the Hebrew calendar, and the most important day in the Jewish religion. The stores of our Hebrew merchants were closed from six o'clock Wednesday evening until six last evening in observance of the fast day.

## Waterworks Standpipe Cleaned.

Superintendent Newton Mitchell, of the Paris Waterworks, had the standpipe cleaned out Monday night, and had about three inches of sediment swept from the bottom of the pipe. The odor which has been coming from the water is due to the decay of vegetable matter in Stoner and not from the carcass of any dead animal as has been supposed. Mr. Mitchell had an inspector to come here from Knoxville last week to give expert testimony on the water question and he said the odor was due to the decay of vegetable matter in the creek. The coming of cooler weather has already improved the condition of the water.

## Post Office To Be Moved.

A government postoffice inspector was in the city Saturday and gave out the news that the Paris post-office is to be moved from its present location within the next two or three months.

The government's contract with the Deposit Bank expired July 1st and there being some hitch regarding the renewal of the contract, the government decided to move the office. Postmaster Bosley and Deputy Postmaster Stivers tell THE NEWS that more room is needed for the assorting and dispatching of the mails, and that they have calls for a large number of extra boxes but have not the room to put them in.

Several locations have been considered but it has not yet been decided where the office will be moved. The inspector said that the office would positively be moved, however.

Imperial spectacles and eyeglasses have perfect lenses, always perfectly centered and made of purest material, set in frames of the highest elasticity and consequently of greater durability, united with the utmost lightness and elegance. When both frames and lenses are scientifically fitted by Dr. C. H. Bowen's system they always give satisfaction for they are perfect. Never buy cheap spectacles, nor of men who do not know how to fit them. You will get poorly adjusted spectacles, or poor, imperfect lenses, and are better off without any glasses than with either of these defects. Buy Imperial spectacles of a reliable, skilled dealer, and they will last longer without change and be cheapest in the end.

We have engaged the services of Dr. C. H. Bowen who will visit our store on the second and last Thursdays of each month and invite all to call and have their eyes examined, for which there is no charge. Satisfaction guaranteed or money refunded.
